Minimum Advertised Price Policy (MAP)

In order to protect the reputation of our company and our exceptional products, BioMed Health Inc. (BioMed Health) has established a Minimum Advertised Price (MAP) policy for all our products. This MAP policy will be uniformly enforced for all BioMed Health products and shall apply uniformly to all retailers, including catalog and online retailers, who resell BioMed Health products, (collectively, "Retailers").

This MAP policy will go into effect immediately, and governs the resale of all BioMed Health products. The MAP policy applies to all advertisements of BioMed Health products in any and all media, including, without limitation, the Internet and any other electronic network. This MAP policy does not apply to any in-store advertising such as in-store displays, point of sales signs or hang tags that are displayed exclusively in physical retail locations and not distributed to any consumer. This MAP policy applies only to advertised prices and does not apply to the products' actual selling price which is wholly within Retailer's discretion. Although Retailers remain free to establish their own resale prices, BioMed Health will, without assuming any liability, unilaterally impose sanctions as described in this MAP policy against Retailers who advertise BioMed Health products at prices below those specified herein.

Under this MAP policy, advertised prices for any BioMed Health products for sale via physical stores, catalog and/or through the Internet may not be advertised by Retailers at a discount of more than eighteen percent (18%) off the manufacturer's suggested retail price as specified below.
